

SOCIAL EDUCATION

<https://rshp.scot/third-fourth-level/>

The above resource is for pupils in S1-S3 and covers many of our social education topics. For each topic there is a PowerPoint presentation with various tasks throughout.

Pupils should –

1. take notes from the presentation
2. complete any tasks, watch any videos, raise points for discussion that arise from these and take note of any questions they would like answered
3. if parents have time in the evening it would be good to discuss these points or answer any questions that you feel comfortable doing. If not, these can be addressed when we return to school or via email if that is preferred
4. only complete one task per week and pupils should spend no more than ONE hour on this subject area

If you have any questions please do not hesitate to get in touch.
